

Total Dedication to quality dental healthcare

THE Aldeburgh and Framlingham Dental Practices offer the entire family complete oral and dental healthcare. Both Practices combine the very best established techniques and procedures with the latest in technological advances in equipment and materials. Each Practice is conveniently located in the centre of their respective towns and principal, Dr Paul Brown, is proud of the level of service his team of highly qualified colleagues provides.

The Framlingham Practice has been developed as a family practice to serve the dental needs of the whole community. Framlingham offers comprehensive dental care including disabled access, however, more complex treatments such as cosmetic smile makeovers and dental implants are directed to Aldeburgh.

Paul qualified at Guys Hospital in 1990 and after experience in both hospital and general practices became owner at Aldeburgh in 1997. The Aldeburgh practice has since developed from a single surgery premises to one of the largest and most successful practices in East Anglia. He acquired the Framlingham Practice on the retirement of Richard Hanlon in 2005. Following extensive refurbishment three treatment rooms, complete with the most modern dental equipment, have been fitted.

Paul is supported by four qualified dentists - Sara Peile; Tamara Sebro; Carole Dewberry; and Johnny Paraskevopoulos. In addition there are specialist dental hygienists - Cheryl Cook and Tricia Voda - and the team of skilled dental nurses. Lesley Burns is Senior Practice Manager in Aldeburgh, whilst Dawn Harold and Kelly Bryenton control administration at the Framlingham Practice.

The Practices have in excess of 1500 child patients at present as a result of an enthusiastic children's care programme. This includes regular check ups for preventative dental care; special child only sessions; the use of modern materials which are capable of releasing fluoride; and gentle dentistry techniques. All children are still seen free of charge within the National Health Service. The Practice continues to accept new patients and encourages parents whose children have not attended a dentist recently

to contact the practice and make an appointment to ensure their child's future dental health.

Both air-conditioned practices have been designed to make dental treatment easier, relaxed and more predictable. The latest anaesthetics and use of pre anaesthetics ensures the most comfortable delivery of treatment. Modern white adhesive fillings are used and a

normal Practice hours.

To find out more visit www.aldeburghdentist.co.uk or ring 01728 452884 for Aldeburgh; alternatively, for Framlingham, call 01728 723651, or visit www.framlinghamdentist.co.uk.

You can also just call in to either Practice to pick up our colour brochure which contains full details of the services on offer.

Dr Paul Brown with Lesley Burns (seated) and Katie Lapwood in Aldeburgh

range of state of the art equipment allows the ultimate in hygiene. Advanced X-ray machines offer reduced potential exposure. Additional services such as dental implants to replace missing teeth and tooth whitening can also be arranged, whilst cosmetic dentistry is one of the Practices' fortes: an interactive patient DVD illustrates the possibilities.

Denplan Essentials is available which enables patients to budget, on a monthly basis for the cost of all their routine and preventative care such as examinations, X-rays and hygiene treatments. With Denplan Essentials, patients qualify for discounts towards more complicated treatments such as fillings, crowns, bridges and dentures. Full details are available.

The Practices open Monday to Friday and emergencies are usually seen same day. An on-call dentist is available out of
